

## Open Caribbean Internet eXchange

OCIX - Open Caribbean Internet eXchange is a non-profit, neutral, independent Internet Exchange located in Philipsburg, Sint Maarten.

OCIX membership is open to all organizations that can benefit from peering their IP traffic with connected members at OCIX. Our objective is to provide high-speed, reliable and resilient IP traffic exchange facilities for local, regional and International organizations, allowing them to route IP traffic efficiently thereby providing faster, more reliable and lower-latency internet access for their customers.

OCIX will interconnect small and large "traditional" Internet Service Providers, international carriers, mobile operators, content providers, VoIP providers, application providers, web hosters and all other related entities - all unified in one association: OCIX.
